Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Synchronous

Brief describe the provision in LMS to be used by HEI :-

SWAYAM is used as a Learning Management System. The courses hosted on SWAYAM are developed by using four quadrant approach as suggested by UGC regulations dated 4th September 2020. Quadrant-I is e-Tutorial; which contains video and audio content in an organized form, animations, simulations, video demonstrations, virtual Labs, etc. Quadrant-II is e-Content; which contains digital Self Learning Material, e-Books, illustrations, case studies, presentations etc. It also contains Web Resources such as further references, Related Links, Open source Content on Internet, Video, Case Studies, books including e-books, research papers and journals, Anecdotal information, Historical development of the subject, Articles, etc. Quadrant-III is the Discussion forum for raising of doubts and clarifying the same on real time basis by the Course Coordinator or his team. Quadrant-IV is Assessment, which shall contain; Problems and Solutions, which could be in the form of Multiple Choice Questions, Fill in the blanks, Matching Questions, Short Answer Questions, Long Answer Questions, Quizzes, Assignments and solutions, Discussion forum topics and setting up the FAQs, Clarifications on general misconceptions.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-

https://online-degree.swayam.gov.in/dyp21_d02_s1_mg01/preview

Assessment mechanism	Dr. D.Y. Patil Vidyapeeth's Centre for Online Learning conducts Technology enabled Proctored Examination. which includes: Testing and provisioning of IT Infrastructure for conducting secure Test (b) Complete Security Management Processes (Physical and Technical for all online examination centres, servers, Desktops, LAN etc) (c) Student handling process at examination centre. (d) To ensure that Test Centre has the required suitable Hardware, Software, Internet and LAN connectivity for conducting online exams. (e) To ensure that Uninterrupted Power Supply (UPS) facility and Diesel Generator are available at each Test Centre (f) To ensure adequate temperature in labs for test. (g) To carry audit at Test Centres for: - Hardware - Operating System (Windows 7.0 or Higher), Processor Speed, RAM, Network and Redundant Internet connectivity (Primary & Backup from different service provider), Key Boards etc. Software - Screen resolution, bandwidth for internet and LAN Connectivity, Browser (Internet Explorer 7 or Higher) Working conditions of UPS & Diesel Generator (k) To ensure suitable drinking water and separate toilet facilities both for Boys and Girls. (l) To ensure availability of proper security to disallow any Electronic gadgets, pen, paper (other than admit card), bag, purse (Except wallet) etc. For offline Proctored Examination it includes: Minimum manpower 1 Invigilator/ 40 Students, 1 Hardware Engineer, 1, Center Supervisor, deployment at each examination centre for smoothly conducting of test. (b) To host the test and manage the test delivery process through internet / Intranet based solution at Examination Centres. The computer systems shall be of latest configuration and LAN / WAN must be scaled enough to handle the traffic in real time with proper backup and redundancy at each level. (c) To ensure candidates do not carry mobile or electronic gadget in exam lab (d) Providing rough sheet to candidates if required (e) Verify candidates admit with ID proof (f) Start the candidate exam (g) Take candidate signature on attendance roster (h) To supervise the exam completely and ensure there are no malpractice (i) To follow post exam process.
Identified technological interface and interoperability	For Identification of technological interface and interoperability new technology innovations in the tools and test systems is introduced that underpin conformance and certification of e-Learning tools and content as compliant to industry standards and specifications. These new tools promote interoperability and provide confidence that the elements of learning content or the learning management systems work together by design. The objective is to reduce a need for expensive and time-consuming adaptations and re-engineering of learning content and management systems. The focus on interoperability was motivated by the increased importance in reusing and combining various learning elements in different ways to meet diverse learning needs and to create more adaptable learning systems. This helped to strengthen the LMS specification by making it more precise, ensured greater interoperability of eLearning content and systems, while also creating further opportunities for latest technologies to be utilised for industry conformance and certification programmes amongst different learning communities.
Learner's Authentication Requirements	Dr. D.Y. Patil Vidyapeeth's Centre for Online Learning, Enterprise Resource system is integrated with the SWAYAM Learning Management System (LMS) and supports authentication. User authentication is handled as a part of the enrolment process driven by the institute. In each new user login, Institute links AADHAAR or other government Id/passport number through SIS ID. However, Government records such as AADHAAR, Passport and other identity systems provide API based authentication and integrations is supported.
Learner Registration - through a web application	For registration through Web Application, student registers with Learning Management System (LMS), which is a registration Software that simplify registration process.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	SWAYAM LMS Provides Following Feature for learner engagement i) Build rich, engaging content through text, images, equations, videos, and more. ii) Stay better organized and direct learning based on prerequisites with Modules. iii) Keep track of important dates and events with the LMS Calendar. iv) Chat with other students or teachers in real-time. v) Help students think deeper about the content they're learning through Discussions. vi) Share, collaborate, and discuss ideas as part of a Group. Student and Course Analytics are shown in the form of several reports that can be added/removed from an Instructor's analytics dashboard. These reports are designed to provide instructors and other users with Student's participation and performance levels across classes. The reports themselves are displayed in crisp visualizations leveraging different graph options from High chart. i. These are three types of dashboards within the embedded Analytics platform: Class Dashboard, Student Dashboard, Critical Reports. Here is a brief description of the 2 main dashboards Class Dashboard – This dashboard has several reports that show student's participation and performance data across individual classes. These Class Analytics reports guide the instructors to view and understand class' progress, performance and response to class content. Some of the sample reports are – 'Distribution of Students by Score per Assignment', 'Login Frequency by Student' etc ii. Student Dashboard - This dashboard has several reports that a student's participation and performance data across the selected class. These Student Analytics reports guide the instructors to view and understand individual student's progress, performance and response to class content. Some of the sample reports are – 'Score Per Assignment', 'Quizzes Completed per Course Interval' etc.
Payment Gateway –using Digital Payment system	Dr. D.Y. Patil Vidyapeeth's Centre for Online Learning, Enterprise Resource system platform supports digital payments via PayPal Integration. Any of the payment gateways help the student pay the fees for the course and the money is deposited in the university account.
Tracking the delivery of a Course or programme	Delivery of Course is tracked with the SWAYAM LMS course analytics. Course analytics track activity, assignment submissions, grades, and students. There are different types of reports such as class dashboard, critical reports, and student dashboard reports. In addition to the analytics reports, the activity report gives a consolidated view of student activity, providing information for each student such as Total Time in class, Last Login, Resource Last Accessed and Assessment last Submitted.
Technical Know-how or Skills Requirements	Online learners need basic technical skills to succeed. These include the ability to create new documents, use a word processing program, navigate the Internet, and download software.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The institution is totally technology enabled. There is 24*7 internet and Wi-Fi connection available for the staff and students. There are portable LCD projectors, laptops, audio-visual equipments in vedio recording room like teleprompter, CDs and DVDs, DVD player, microphones (Collar and wireless), speakers, amplifier, mixer, camera and video camera etc. All these resources are well utilized to make teaching-learning process meaningful.
